Fruit Logistica 2022: Lufthansa Cargo as exhibitor again on site this year

Finally meeting in person again: Fruit Logistica trade fair opens its doors in Berlin from 5-7 April 2022. Lufthansa Cargo is an ideal partner for transporting perishable goods

When Fruit Logistica opens in Berlin on April 5, Lufthansa Cargo will once again be among the exhibitors. At the world's leading trade fair, the company will demonstrate why it is an indispensable partner for the global trade in fresh fruit and vegetables. This is because Lufthansa Cargo offers its customers a transport service that delivers perishable goods undamaged to even the most remote corners of the world. This is ensured by a temperature-controlled environment during the flight and storage, as well as the

deployment of specially trained personnel. For example, blueberries from Argentina, avocado from Mexico or beans from Kenya are transported all the way to the recipient in warehouses in the UK or the Netherlands.

"When it comes to handling temperature-sensitive goods and perishables, Lufthansa Cargo has many years of experience and globally recognized expertise," says Wouter Boekee, Global Industry Manager Agriculture & Food at Lufthansa Cargo. "With our special Perishables toDoor service, we also offer Europe's leading food markets direct delivery via the Frankfurt, Munich and Brussels hubs.

With the Lufthansa Cargo hub in Frankfurt and its state-of-the-art and largest perishable center in Europe with fast and vacuum cooling capabilities, as well as its optimal location to distribute goods across Europe, Lufthansa Cargo is a reliable and experienced partner to the agri-food industry. Lufthansa Cargo has an extensive network with freighter as well as passenger connections from the most important export countries for fruit & vegetables.

Lufthansa Cargo has been an exhibitor at Fruit Logistica since 2013. The Lufthansa Cargo booth can be found in Hall 25, Stand C-07. Numerous airfreight experts will be available there for discussions with interested trade fair visitors.

Lufthansa Cargo AG

With a turnover of 3.8 billion euros and a transport performance of 7.2 billion freight ton kilometers in 2021, Lufthansa Cargo is one of the world's leading companies in the transport of airfreight. The company currently employs around 4,200 people worldwide. Lufthansa Cargo's focus is on the airport-to-airport business. The route network covers around 300 destinations in more than 100 countries, using both freighter aircraft and cargo capacity from passenger aircraft operated by Lufthansa, Austrian Airlines, Brussels Airlines, Eurowings Discover and SunExpress, as well as trucks. The majority of the cargo business is handled via Frankfurt Airport. Lufthansa Cargo is pursuing the goal of becoming the world's most sustainable cargo airline. To achieve this, the company relies on state-of-the-art technologies and continuous investments in the area of sustainability. In 2021, important milestones were

reached, such as the fleet modernization to an all-B777F fleet and the introduction of completely CO2-neutral freight transport for all customers. In 2022, Lufthansa Cargo plans to successively equip its fleet with Sharkskin technology and expand its Sustainable Aviation Fuel program to further reduce CO2 emissions. Lufthansa Cargo is a wholly owned subsidiary of Deutsche Lufthansa AG and the specialist for the logistics business of the Lufthansa Group.
